Attachments: TSCA SACC Asbestos Report Final 20200826.pdf; Asbestos COMMS Summary 20200827.docx

Importance: High

Hello Sharlene,

The final asbestos report and minutes was signed on August 27, 2020 (see attached documents).

The actual signature was removed and /s/ was used for posting. Tamue was working on the final compilation before posting. So she should know where the signatures file is kept. Thanks.

Best Regards,
Diana

Importance: High

Hayley and Steve. The TSCA SACC meeting minutes is now compiled (with signed transmittal memo, etc.; page 5 signature page) into the main report (refer above).

We are waiting to hear from Hayley who will receive word from Alex on a final date of publication. I will update Amparo on the final date of publication as soon as it is received. Allison has a draft copy of the Asbestos listserv and Don is waiting to link (the document from the docket) to update our TSCA SACC website.

Thank you Hayley and Diana for all of your efforts!

Tamue

All,
Please stand by, I just asked Alex about the release date to see if we can wait until tomorrow or Monday.

Thanks,
Hayley

Please don't post anything until we get the green light from OPA- which we don't have at this point.

I will link to it on the TSCA SACC site today, if it is available in the docket today.

I planned to take AL tomorrow. I might be around in the morning to link to the report, but leaving town tomorrow afternoon and will be unable to access the site at that time.

Correct- we don't have the draft listserv text yet. Below is the text we used for the PCE report- hopefully you can easily tweak it and send back to us. Don't forget we will need to make sure the epa/tsca website will need to be updated too.
-Allison

TSCA SACC Meeting Minutes and Final Report for May 2020 Meeting on EPA's Draft Risk Evaluation for Perchloroethylene

The meeting minutes and final report for the May 26-29, 2020, Toxic Substances Control Act (TSCA) Science Advisory Committee on Chemicals (SACC) virtual meeting regarding EPA's draft risk evaluation for Perchloroethylene is now available.

The meeting minutes and final report is available in the docket EPA-HQ-OPPT-2019-0502 at www.regulations.gov. A link to the document is also posted on the TSCA SACC meeting webpage at <https://www.epa.gov/tsca-peer-review/peer-review-draft-risk-evaluation-perchloroethylene>.

EPA is in the process of reviewing the report and then will determine next steps.

The TSCA SACC serves as a primary scientific peer review mechanism of EPA's Office of Chemical Safety and Pollution Prevention and is structured to provide independent scientific advice and recommendations to EPA on the scientific basis for risk assessments, methodologies, and pollution prevention measures and approaches for chemicals regulated under TSCA.

Hi Allison. Checking in with you regarding the Comms activities. Am I correct in stating you do not have a draft list serv from OSCP? If not, I will be working on a draft and sending it to you for review very shortly.

Subject: Update SACC Asbestos Minutes and Report

Hello Alex, David and Allison,

We have received the report from the Chair and are getting it ready for the release. Please see the comms one-pager attached.

Allison--Tamue Gibson is filling in for Steve Knott today and will contact you to coordinate the Comms activities.

Thank you,
Hayley
